

# Ten Reasons to Publish with Canadian Science Publishing

Choosing where to publish your research is one of the most important decisions of your career—that's why we're transparent about who we are and what we offer. We know that our **researcher-focused** services are the **best** in the business.

## We publish 24 award-winning scientific and technical journals. Join us.

1. **Your research, worldwide:** Our readers come from more than 175 countries including developing nations, which are supported through programs like Research4Life, INASP, and TEEAL.
2. **Your research, not your research grant:** There is absolutely no cost to publish in 16 of our subscription-based NRC Research Press journals and you will never be charged a submission fee.
3. **Your research, your choice:** Our journals are compliant with the open access policies of all major research funding agencies. We have several open access options, including a fully open access journal, available for those who wish to, or are required to, publish as open access.
4. **Your research, available faster:** With our Just-IN feature, your accepted manuscript will be available online, with DOIs for immediate citation, within five days of acceptance.
5. **Your research will always be your research:** Our authors retain copyright and there are no fees or charges for you to reuse your published material.
6. **Your research, promoted and shared:** We're connected to our community through regular conference attendance, sponsorship programs, awards, and social media. We actively promote our content and engage with our global audience.
7. **Your research, disseminated and discoverable:** Our journals are indexed in Web of Science, MEDLINE/PubMed, SciVerse Scopus, and other major databases.
8. **Your research is secure:** Our content is archived in Portico and CLOCKSS to ensure long-term preservation of digital journal content.
9. **Your research published independently and not-for-profit:** Canadian Science Publishing an independent, private, not-for-profit scholarly publisher.
10. **Your research as part of a tradition of excellence:** We began as the NRC Research Press in 1929 and have continued to grow, evolve, and expand. All of our journals benefit from expert editorial boards, rigorous peer review, and a legacy of publishing quality, impactful research.

It's your research; we just have the honour of sharing it with the world. Publish your next paper with Canadian Science Publishing, publisher of the NRC Research Press suite of journals.
